During a recent Council meeting, Sabrina Galvan, representing the Oaks subdivision, made a request to relocate stop signs at the intersection of Jefferson Ln. and Grayson Ln. in the City of Lake Dallas.

BACKGROUND INFORMATION:

Based on a report from P.E. Michael Cox; "I agree that the traffic control at the intersection of Jefferson Lane and Grayson Lane should be changed, changing Jefferson traffic to be through traffic and requiring Grayson traffic to stop, each way."

Good afternoon.

I agree that the traffic control at the intersection of Jefferson Lane and Grayson Lane should be changed, changing Jefferson traffic to be the through traffic and requiring Grayson traffic to stop, each way. At this particular intersection, Jefferson would be considered the “major street” and Grayson would be the “minor street”. This is based on the understanding that Jefferson, between Swisher and Grayson, realizes more average daily traffic than Grayson. Additionally, Jefferson between Swisher and Grayson is only

As far as engineering design criteria, we typically follow TXDOT’s Manual for Uniform Traffic Control Devices (MUTCD). I have summarized and paraphrased this design manual states, regarding regulatory stop signs:

“Engineering judgment shall be exercised and incorporate the application of established procedures and criteria through the application of appropriate principles, provisions, and standard practices, for the purpose of deciding upon the applicability, design, operation, or installation of a traffic control device, including regulatory signs, such as stop signs.

Detailed traffic data is not required to make changes to the traffic control of a residential intersection. Please see the attached document regarding recommended changes and traffic control devices.
